MEMORANDUM FOR: Director of Computer Services  
Director of ELINT  
Director of Research and Development  
Director of Scientific Intelligence  
Director of Special Activities  
Director of Special Projects  
Director of Foreign Missile and Space Analysis Center

SUBJECT : Directorate of Science and Technology Combined Program  
Call FY 1969-1973

1. A complete copy of the DDS&T Combined Program Call for FY 1969-1973 is attached to this memorandum. It is intended to provide guidance and information for Program Call hearings with O/PPB which are to be scheduled in early April. Dates and times will be provided as soon as they are arranged, probably in the second week in April. The complete Program Call will also assist in rewriting the individual Office Program Calls which are desired for use within DDS&T only.
2. If it has not already done so, each Office in this Directorate is requested to submit one copy of its revised and complete Program Call to the A/DDS&T by 21 April 1967. Previously submitted draft copies of Office Program Calls are being returned so that revisions and corrections may be made where they are necessary. Special attention should be paid to the Summary of Funds and Positions and the Distribution to Target Areas since these were rearranged several times in coordination with Office Planning Officers.
3. The Directorate Program Call contains several items of high sensitivity and special security controls, nevertheless, it is appropriate that each Office Director be familiar with the entire Directorate position. With this in mind, please restrict dissemination of the Directorate Program Call to the most strict need-to-know basis.
